

"IT SAVED MY LIFE"

The Feeling Tribute of a Woman to

PE-RU-NA

READ HER LETTER--IT WILL DO YOU GOOD

"Pe-ru-na has been a Godsend to me. I feel safe in saying that it saved my life. I was all run down and miserable when I commenced taking Pe-ru-na, but am on the road to recovery now. I cannot thank you too much."

Mrs. CHARLES ANSPACHER,
H. F. D. No. 7, Lagrange, Indiana.

A letter like this brings hope and the promise of health to every sick and suffering woman. Perhaps you know what it means to have your daily duties a misery, every movement an effort, stomach deranged, pains in the head, back and limbs most of the time, nerves raw and quivering--not a moment of rest or night free from suffering. Do as Mrs. Anspacher did. Take Pe-ru-na. Don't wait but start right away.

PRIZE ESSAYS IN THRIFT CONTEST

Following are the essays on thrift which won the prizes put up by the two banks in Louisa in connection with the Y. M. C. A. campaign conducted in Louisa by the Y. M. C. A. The winners are students at Kentucky Normal College.

FIRST PRIZE.

Thrift in Its Relation to Money.
(Chesley Lyman)

As Benjamin Franklin's birthday, the seventeenth of January, rolls around we are again reminded of the necessity and effect of thrift. That eminent philosopher was one of the strongest and wisest advocates of thrift that America has ever seen. His maxims, nearly all of which relate to thrift, were first published in Poor Richard's Almanac and have come down to us practically unchanged and will echo in the hearts of men throughout the ages.

What is thrift? Thrift in regard to money, is prudence in earning, investing, spending, saving and giving.

In this great country of ours earning is a small factor. Every man, woman and child can find constant employment at nearly any kind of work he wishes and at good wages. If one has an honest business of his own and applies himself earnestly to it there is very little chance of his failing and at the same time there is an excellent chance to make money.

After money is earned it must be invested if it is to benefit us and others. Every one should own his own home. A home is one of the best of investments and at the same time an excellent way of saving. For the last few years there has been an open, easy and patriotic way for every one to invest, namely, in Thrift Stamps, War Savings Stamps and Liberty Bonds. The Thrift and War Savings Stamps are especially designed for children and others who have small amounts they wish to invest wisely. They provide systematic banking; help our country; are good investments; bring quick, safe returns; are easily secured and within the reach of all. Insurance is also a good way to invest a part of our money. It protects our property and our loved ones.

While earning must be observed in accumulating wealth, spending must not be passed unnoticed. Most of the poverty of this country is the fruit of extravagance. Solomon said, "A wise man foreseeth." He surely meant that any one should look forward to his spendings. Don't spend your money at random but have some system about it, such as keeping a budget. Appropriate a certain amount for each thing you have to buy and then if absolutely necessary make another appropriation later. What would we think of our legislatures and Congress if they never set apart a certain sum for a specific purpose, yet that is what most of us are doing in our every day life.

No matter how much we earn we can not hope to be successful unless we are saving. As the ocean is made up of drops of water and the land of "little grains of sand," so must our wealth, if we ever have such, be made up of "pennies." It is very unwise and at the same time unsafe to keep money around the house as there is constant danger of loss by fire, thieves, rats, etc. One of the oldest, best and most practical ways to save money is to put it into savings banks. In the parable of the talents the master said to the slothful servant, "Thou oughtest to have given my money to the exchangers (bankers) that I might have received mine own with usury (interest)." Your money in the bank is helping others and at the same time is working day and night for you. The bankers are not the unfriendly, aristocratic class of people they are thought to be. By all means get acquainted with the bankers; they will be more than glad to give you advice and aid in your financial troubles.

Franklin's Almanac was full of such sound sayings as:

A penny saved is a penny got.

Many a little makes a mickle.

For want of a shoe we lost the day.

No morning sun lasts all the day.

The great reason you and I should be saving is not merely that we may increase our store of wealth and thereby our comfort and happiness and add to the general welfare of the world but our habits, like savings, are made up by little acts and habits make character; and character is the only thing which we can take with us to the great beyond. It is a sad thing to bid adieu to this world, being either a spendthrift or a miser.

We were not put in this world to gain wealth for our own selfish purposes, but we are morally obliged to give what we can to church, charity, etc. Christ ordered his apostles to go into all the world and preach the gospel to every creature. This of course takes money and we MUST go down into our pocketbooks as deep as possible to further the good work. Happy is he who earns all the money he honestly and honorably can, gives it wisely for his own and others benefit and leaves it without a regret when his stewardship is at an end. Such a man can walk the gold paved streets of the city of God without a shudder at the former deep debasement of that city's paving material.

SECOND PRIZE.

Thrift and Its Relations to Right.
(August M. French)

Thrift is the basis of all success, power behind accomplishment; the foundation of efficiency and the art of right living.

Set a good example and others will emulate your example; by so doing you will have laid the corner stone of character, the foundation of efficiency, "planted a smile on the face of childhood," peace and happiness in the silvery hair of age.

Right is the foundation of perfect citizenship; the fundamental part of good management in small things which in later years may bring prosperity, success, love and happiness to the uprisings generations.

For several years past our government spent so lavishly and extravagantly that the time came to call a halt. Proclamations were issued call-

ing upon the people of this nation one and all to save. Appeals were made to children to not spend their pennies and nickles for gum, candy and the movies, but to buy thrift stamps and form the habit of saving. Numbers that never had saved anything before soon had bank accounts and the habit formed in the time of need remained with them and today they have as a result of this thrift saving a competence that will serve them when the cold hand of adversity is laid upon them.

An illustration of two young men of whom I am personally acquainted of the same town. In ability, physical strength and earning capacity they were equal; one heeded the call of his government, spent nothing lavishly, he gave up many unprofitable pleasures and temptations for right, he started a bank account, when his days work was done he spent his time at home reading good literature, finding pleasure and real satisfaction in so doing. When pay day came he went to the bank and deposited his earnings; he was encouraged by the banker; but little did he know that the eyes of the people were upon him. When Sunday came he went to Sunday School and church, he gave liberally and unselfishly to both; he contributed for the support of worthy causes. He saw that self-denial and thrift were the gateways to success. And he aimed in that direction. There was a vacancy in the establishment where he was employed. His superintendent noticed the habits of the young man and called him into his office and gave him a better position with an increase in salary. He proved his efficiency and soon made general manager with a greater salary. He invested his income wisely, buying for himself a home and is now looking forward to the time when his head will be silvered over and his steps infirm.

But what of the other young man? He formed the habit of riotous living; he spent his earnings on low, vile and base temptations that came to every young man; rivalry was his goal; drinking was his besetting sin. He forgot the laws of his country and is now an outcast of decent society, lost his position and depending upon charitable institutions for support. Not like the latter will the former be; he will not be cast out upon charity, but will be in a position to encourage and influence others by "Thrift and its relations to right."

In reality the only road to success is saving to the right end; "it is the little leak that sinks the large ship." Take care of the small things and the large ones will take care of themselves.

As though a deep gulf.

Was yawning below.

As crossing thin ice.

Take heed how you go."

CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them. Ask your neighbor?

Jack Blankenship, foreman Construction Co., Plumb St., Louisa, says: "I have had the best of results through the use of Doan's Kidney Pills and can't recommend them too highly. I have a lot of exposure while on duty as foreman of a construction company and hoisting engines, together with the jarring, is what had a tendency to bring on my kidney trouble. There were times I had to give up work and go home and stay there, as I was just 'down with my back.' Sharp, shooting pains darted all through my back and kidneys and the kidney secretions passed irregularly, containing a sandy sediment. I was in bad shape generally until I went to the Louisa Drug Store Co. and got three boxes of Doan's Kidney Pills. I began using this medicine and soon got over the trouble. Doan's fixed me up in good shape and I have never been bothered since."
